

John Crippen Photography - Winery / Vineyard Shoot Agreement

A full area shoot of a winery / vineyard is for a single location and consists of both interior and exterior shots. If models or other people are available, the appropriate release forms will be provided. The images will be mixed down and organized. They will then be provided on a disk in both full resolution form for printing, and a compressed format for easy internet usage. These shoots generally consist of approximately 100 images and the winery will have the right to use the photos in any way they see fit. The shots are taken with multiple angles, lenses, and filters to maximize the potential marketing ability of the winery. **If travel is required, additional charges may be negotiated.**

By agreeing to this form, the winery / vineyard representative agrees to the price of **\$300.00** with is due upon delivery of the disk full of images. it is understood that the final outcome of these images is sometimes can vary due to elements outside the photographer's control. The representative has seen some of John Crippen's work prior to the shoot and find it satisfactory. It is also understood that the photographer (John Crippen) may also use these images for business promotions or other business needs.
