A full area shoot consists of common areas and amenities such as pools, spas, restaurants, and bars, up to five rooms, exterior shoot from various angles, exterior night shoot (great for magazine adds), a model shoot if models have been designated by the business (I'll supply signed release forms when possible). The images will be mixed down onto disk. I can also expedite some of the images directly to ad-agencies, magazines, or news papers via email. Payment for services is due upon delivery of the disk. This basic package is \$650.00. For additional rooms or other additional shooting, I charge \$75.00 and hour. The end result of the images often depends on circumstances beyond the photographer's control i.e. weather, obstructions, or other complications related to the business. It is he responsibility of the client to be prepared for the shoot. If I have to travel more than 30 miles from Atascadero, I may charge for travel expenses. John retains the right to use these images for self promotion.

I have read and understand this agreement. I have spoken with John and/or have seen an example of his work and find it satisfactory.
